

As a resident of Surprise, AZ KLOVE serves me in spiritual guidance, informs me of world news, upcoming events/concerts and provides wholeness to my daily walk in life. If KLOVE were to be displaced LPFM broadcaster, I don't know what I'd do. KLOVE is the only radio station I listen to. KLOVE provides so much to me that I can't even begin to explain how much this radio station means to me and how it positively affects my life and the lives of my family and friends. I know many people who listen to KLOVE and would be devastated if it were replaced. I believe that the service provided by KLOVE is in the public interest because thousands of people listen to the station and attend the events highlighted and/or sponsored by KLOVE. As one example, one of many concerts held at the new Glendale Arena (or other facilities within the state) not only provides positive entertainment that the whole family can attend, it provides revenue for the City of Glendale (or State) and financial support of the arena. This station affects the community in a positive manner by offering many family oriented events; thereby bringing together not only the family as one, but the community as a whole in a non-violent, upbeat, positive atmosphere for all. I'll bet if you researched events sponsored by KLOVE, there was no violence or problems that evolved from the event. KLOVE is a healing enforcement to our community. It would be a great loss to all if it were replaced. Thank you for listening to our pleas to keep KLOVE available to us all.
